EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Edward Kmett on 06 September 2005. Attorney Kmett agreed to amend the claim language of claim 17 to read:

A computer-readable storage medium comprising a program for implementing a printer driver, said driver comprising:

a quantization module which quantizes, in each pixel, multi-valued image data into N-valued data (where N is a natural number), and outputs a K-bit code capable of expressing the N values;

a conversion module which collects K-bit codes for M pixels (where M is a natural number), and converts the collected K-bit codes into a L-bit code (where $L < M \times K$);

a packing module which packs the L-bit code and the N-valued data into data of a predetermined number of bits; and

an output module which outputs the packed data.
